

# WIFE IS WINNER, SAYS JUDGE.

(By International News Service.)  
Los Angeles, Cal., March 8.—A man who loses his wife through "alienation of affection" has lost nothing he isn't better off without. There is no such thing as "damages" for lost love, because the loser hasn't been damaged.  
If another woman steals a husband away from the wife should consider herself to be congratulated, not pitied, over the loss of that husband.

This is the novel set of theories propounded by Judge James C. of the Los Angeles Superior Court, who believes that in time judges generally will refuse to hear alienation of affection and lost-love suits, but will, instead, non-suit them.

# MONKEYS START RIOT IN CHURCH BY BITING GIRL.

(By International News Service.)  
Santa Barbara, Cal., March 8.—The interest of Stanley McCormick, millionaire, in nervous effects and his subsequent purchase of a monkey for study, led to a riot of nerves in a church here. The monkey wandered into the church and bit Miss Alma Barnes in the hand and leg. Then it charged several other persons. Finally Vincent Maulhardt, a lad to whom the monkey had been given as a pet, procured a rifle and shot it.

# LIVE WIRE KILLS THREE

SCHOOL BOYS AT PROVIDENCE  
MEET TRAGIC AND SHOCK-  
ING DEATH.

Providence, Ky., March 8.—Three little schoolboys were instantly electrocuted Wednesday when they caught hold of a broken live telephone wire, while on their way home from school.

They were: Haywood Clark, aged 10, son of J. E. Clark; Clifton Dorris, aged 9, son of Ed. Dorris, grocer, and Alvin Cutsinger, aged 11, son of Jeff Cutsinger, miner.

Light-heartedly, skipping down the street, schoolbooks under their arms, the little lads, with childish habit, all grabbed hold of the innocent-looking wire dangling over the pavement.

Within an instant, the deadly wire, charged with 2200 volts as result of being crossed with the city light wires, sent its destructive force through the bodies of the little scholars, prostrating them on the pavement lifeless.

The irony of the fate is revealed in the fact that the manager of the telephone company was hurrying back to mend the broken wire at the

# JOAN OF ARC SPARED

The famous statue of Jeanne d'Arc, by Paul Dubois, in front of the battered cathedral at Reims. In some parts of France devout people speak of the Jeanne statue in Reims as a miracle, because although the cathedral has been scarred and shattered, and every building around the square badly damaged, the statue is untouched except for a few chips made by fragments of flying steel.

Time the accident occurred and was only a few minutes too late.

The broken wire was that of the Home Telephone Company. Manager Isaacs had been doing some work, with an assistant, on the line when he received word that his trouble man had been injured in another part of the city, and was calling for him. Without waiting to complete his work, he hurried to the side of the injured man. His assistant was supposed to stay on the job but left to follow him to see the injured man.

Mr. Isaacs was on his way back to fix the broken wire when the accident occurred, as he realized it should be attended to before the school children came out. He was only a few minutes too late.

# Workman Badly Hurt.

The trouble man, who was seriously injured, was Wm. McCulley, son of Jas. McCulley, well-known business man of Clay. Young McCulley was at work on a pole, when he came in contact with a live wire. He was hurled from the top of the pole to the ground and was unconscious for some moments. He is horribly burned on the hands and arms, but will probably recover.

# PLENTY OF LASTING SNOW WILL SAVE WHEAT CROP.

(By International News Service.)  
Washington, March 8.—Pray for deep snow and plenty of it until well along into the spring. It is snow, says the Department of Agriculture, which will save or lose this year's winter wheat crop.

Until late in December the wheat crop looked very bad—the worst in years. Deep snow, which the late James J. Hill always referred to as the Northwest's best protector and fertilizer—has vastly improved the situation. If enough stays on and the ground is not uncovered before the heavy frost period is over, the crop will be a fair success. Planting is 2,000,000 acres greater than ever before.

# WOMAN SHOWS POLICE HOW TO SHOOT REVOLVER.

(By International News Service.)  
Portland, Ore., March 6.—After members of the local police department proved themselves poor shots with a target range of 27 per cent. for ten shots, Mrs. William C. Crouse, of the Women's Protective Division, went down to the police range and plugged the bullseye ten times out of ten shots.

# APPEAL FOR FINANCIAL AID

CIVIC LEAGUE ASK FOR CONTRI-  
BUTIONS TOWARD AN AM-  
BULANCE FOR WAR WORK.

The Civic League has given several years of self-sacrificing labor in assisting the authorities to make Hopkinsville a bigger, better, busier and more beautiful town, and for the first time asks that other citizens make voluntary contribution to an ambulance for the French front which work has been undertaken by the State Federation of Women's Clubs. The club women of the state are giving freely of their time and means to every cause connected with the war, but the women of the Kentucky Federation want a concrete expression of their patriotism to which they can point with pride.

To finance this each woman is asked to give 25 cents. The Hopkinsville Civic League would like to do more than this and so asks other patriotic and public spirited citizens to increase this to the sum of \$100.00 which would be a worthy gift to the state work and to the nation. Sums from 25 cents up will be gladly accepted. No extended canvas will be made but Mrs. H. M. Frankel as chairman of the committee will receive contributions. It is hoped that people will respond gladly to this bit of effort.

The state president, Mrs. Lowndes has started the subscription with \$25.00 in honor of her son whose health will not allow him to go. So many are similarly situated or have no sons to offer that the fund should be greatly augmented with contributions in place of service. There are plenty of brave and willing men to risk their lives driving these ambulances over the shell-swept roads under the hail of enemy fire to carry their comrades from the trenches to the hospitals and dressing stations. It seems that we should give freely indeed to the conveyances to be used in this work of mercy and necessity. We know that 95 per cent of those who reach the care of the doctors and nurses recover, and it is up to these who cannot go to send these messengers of salvation.

Let us have hearty responses to this call, help our own boys "over there" and give the club women of the state and our local Civic organization something to be proud of when the roll is called of generous and timely givers.

# ADDRESS BY R. H. DANA.

(By International News Service.)  
Milwaukee, March 8.—Howard H. Dana, Cambridge, Mass., resident of the National Civic Service Reform League and author of the first Australian ballot law passed up his country, spoke here today, before the Wisconsin Civic Service League on "The Merit System and the War."

# BARGAIN IN A FARM.

# SEEKS DIVORCE BECAUSE HUBBY TOOK 'HAIR MONEY.'

(By International News Service.)  
Canton, O., March 6.—Money was needed, so she cut off her hair and sold it for \$5, Mrs. Wilda B. Bowles alleges in her petition for divorce. Her husband, Homer D. Bowles, she charges, took the money from her and used it himself. Hence the suit.

# KELSEY IS POULTRYLESS.

(By International News Service.)  
Kelsey, Col., March 6.—Kelsey today is poultryless.  
The high price of chicken feed and the order of the Government stopping the sale of wheat for any except milling purpose is responsible for the disappearance of Kelsey's henries.
